

## MEWA Newsletter

*November 30th, 2024*

Dear MEWA Members/PanArk homeowners,

Happy Thanksgiving week! Here are your MEWA updates:

**Building:** If you are planning on building in Pan Ark in 2025 and have not already reached out to us about securing a water certificate, water tap, and curb stop, please do so ASAP by emailing [mewawater@gmail.com](mailto:mewawater@gmail.com), so we can continue planning our 2025 work.

**Augmentation Plan:** MEWA's response to the comments from the City of Aurora are due December 3rd in preparation for the next status conference on January 7th, 2025 (*you can find more information here:* <https://dwr.colorado.gov/services/water-administration/augmentation-plans>).

**Well Pumping Volumes:** May 2024 through October 2024 usage was 3.7MG, and over 180 days that means we are pumping 20,902 gallons per day (gpd). In 2023 we were 3.8MG, 21,510 gpd, so we are **3% less** than a year ago!

**Other:** Reminder to winterize/turn off your plumbing if you are leaving for an extended period of time. On a similar note, MEWA is still selling Aqua-Flo **freeze protection** devices (<http://www.groupwd.com/wd-aquaflo>) for **\$1800**. Please contact Brent or Brian if you're interested in purchasing one this winter.
